

# Air-to-Balcony-to-Water "Bridging" Heat Exchanger

## LEGEND

1. Snowfall
2. Snow accumulation
3. Leaks
4. Evaporative cooling
5. Internal gains
6. Hydronic ice melt
7. Leaks to drain
8. Precipitation collection pipe
9. Direct solar gain
10. Glycol loop
11. Ambient temperatures/  
thermal mass
