

Peer Networks Outreach Kit

Do you know someone who may be interested in joining the Peer Networks community? Here are three simple steps for how to invite them to apply. If you have any questions, please get in touch with jerelyn@buildinggreen.com.

1. Consider whether or not they are eligible. These are the eligibility requirements:

Sustainable Advising Leaders

These members are in a sustainability consulting role and have an established record of thought leadership and innovation.

Sustainable Community Design Leaders

These members are in a sustainability leadership role at a design or consulting firm focused on the community design scale.

Sustainable Construction Leaders

These members are in a sustainability leadership role at a construction company with at least \$100 million in annual revenue.

Sustainable Design Leaders

These members are in a sustainability leadership role at a mid-sized or large architecture firm (at least 25 staff members).

Sustainable MEP Leaders

These members are in a sustainability leadership role at a firm with a substantial MEP design practice (30+ MEP design engineers).

2. Use the Member Directory to see if they are already a member of one of the networks.

You can find a list of [all Peer Network members here](#). This list can be filtered by network, firm, region, or member name.

3. If you think your contact qualifies for one of these networks, feel free to reach out to them via email or a phone call. If you send them an email, you can CC jerelyn@buildinggreen.com.

When you reach out to your contact(s), you can send them a link to the application page for the relevant network. They will then be able to fill out a brief application if they're interested, and that information will be reviewed before they are formally invited to register for the network. If you want to share something that shows what the networks have been up to, you can add a link to one of the recent Summit reports linked below.
